FARADAY

Designed by Jonas Søndergaard

Add an elegant touch to your home decor with the Faraday lampshade. This sculptural work of art features an intricate brass mesh structure that is sure to captivate the eye. Its milky-white globe inside provides glare-free illumination, making it perfect for your dining table or hallway.

Inspired by the British scientist Michael Faraday's cage theory, this lampshade displays a fine grid that filters the light beautifully, casting an enchanting glow on your walls. The elegant design pays tribute to one of the most remarkable discoveries in the history of science and technology.

The lampshade is crafted from brass-plated steel and white opal glass and can be mixed and matched with different cord sets and canopies from the UIMAGE lighting accessory collection.

Its contrasting brass details and milky-white globe will add a spark of sophistication to your décor and light up your home in a stylish manner.
